Embrace Diligent Care
and Let Your Eyes Shine

Illuminating Eye Essence
Embrace Diligent Care and Let Your Eyes Shine

Embrace your eyes' allure; they reveal life's essence with grace and sophistication

Embrace diligent care and let your eyes shine. Eyes are vital senses, contributing 80% of cognitive knowledge. Poor eye habits can harm health. According to the World Health Organization's [World Report on Vision], globally, 2.2 billion people have impaired vision, 1 billion of which could be prevented. Additionally, over 800 million lack proper eyeglasses.

Cataract Symptoms
Blurred vision, double vision, decreased near or distance vision.

Glaucoma Symptoms
Vision loss, visual field defects.

Age-related macular degeneration (AMD) Symptoms
Distorted or wavy vision, usually not painful.

Heart-wrenching, the data on eye diseases' impact

Global eye disease data: myopia, presbyopia, cataracts, and glaucoma are widespread. Developing nations face more severe problems due to limited care. Excessive device use, improper habits, and environment contribute. Early prevention and protection are vital.

In 2016, Journal of Ophthalmology reported 1.4 billion myopia cases in 2000 (22.9% of global population). By 2050, it's projected to reach 4.758 billion (49.8% of the population), doubling in 50 years. Urgent attention and prevention are crucial.

Vivid C. 3-minutes solution for red bloodshot eyes
Brighten Eyes and Enlarge Pupils in 10 Minutes

Relieves Eye Discomfort and Aids in Eye Protection

Suitable for Various User Groups

Can Address and Manage Over 36 Eye Conditions

Suitable for Long-Term Use

Pure Plant Extracts, Natural Ingredients, Safe and Reliable

CORNFLOWER
It possesses anti-inflammatory and antioxidant properties. It can help alleviate eye redness, soothe irritation, and protect the eyes from oxidative stress.

HYALURONIC ACID
Moisturizing, hydrating, and locking in moisture can relieve dry eyes, tighten the eye area, and alleviate eye fatigue.

LUTEIN
Providing nutrients for the eyes, filtering harmful substances, and preventing overexposure to blue light, ultraviolet rays, and radiation.

NORTH AMERICAN WITCH HAZE
Repairing the Retina, Clearing Blockages, Reducing Swelling, Addressing Pimples (Eye Discomfort)

NIACINAMIDE
Whitening, Antioxidant, Restoring the Corneal Layer, Improving Macular and Vitreous Opacities

TAURINE
It has a potential protective effect on the retina and contributes to supporting retinal health. It is believed to possess antioxidant and anti-inflammatory properties.

METHYL GLUCOSIDE
Antibacterial, Anti-inflammatory, Detoxifying, Addressing Dryness and Irritation in the Eyes

3 Core Technologies

Stem Cell Regeneration Technology

Harnessing the unique capabilities of stem cells to promote tissue and organ regeneration and repair, facilitating cellular rejuvenation.

Precision Medicine

Targeted repair techniques for damaged nerve cells and neurons, ensuring accurate and effective healing.

Patented Nanomedicine

Activating small molecules, converting amino acid groups into peptides, and utilizing peptide microcarriers for enhanced mucosal absorption.

Vivid C. Suitable for all ages and all groups

Excessive electronic device usage and eye strain

Frequent contact lens wearers

Dry eyes, dust entering the eyes

Dark circles, wrinkles

Pregnancy, staying up late to care for the child

Surgery-free

Needle-free

Medication-free

Provides cellular nourishment and targeted cell repair

Apply 2-3 times daily, 1-2 drops each time, close eyes for 3-5 mins.

Use within 30 days after opening to maintain effectiveness.

Not suitable for thyroid disease or congenital red eye disease.
